Baby Gifts

Surprise the new parents with the loveliest gifts made of the finest materials.

About

Our story began a few years ago when we tried to find the perfect gift for our friend's newborn baby. Surprisingly, we couldn't find anything we liked: affordable, unique and something having excellent quality.

Over the next few years, as we traveled to different countries, we found many products that we instantly liked, made by talented artists. That is when we decided to bring all of them under one roof - the perfect gift destination for babies and toddlers.

Our idea is simple - a gift should be both; affordable and useful. All our products are handpicked, have unique aesthetics and are made of the finest materials. We take quality and safety very seriously, we travel around the world to find the best quality. Our logic is simple: if we won't use it in our own homes, we won't sell it.

Each product in our online store is beautifully hand crafted and is organically made. Basically, we know that your babies are going to taste all of their toys and probably chew some of the cute stuff toys.

We want our toys to spark the imagination and curiosity of young minds. We collaborate with the best artists from all over the world to source imaginative and unique products that you may never have seen before. Sharing the stories of these amazingly gifted individuals always brings joy to our customers, and it helps support the artist community. We love partnering with all of our talented artists, and their incredible designs never fail to leave us feeling inspired.

I founded **Baby Mona** with the support of my husband. We are a small family run business and we started it to share what inspires our own life with new mothers, fathers, toddlers and most importantly, the joy of new life – babies.

A little about us - My husband and I come from 2 different continents, one from Europe and the other one from Asia. We moved to Dubai in 2012 where we enjoy the warmth and friendliness of our new home. We work hard and travel harder. Oh, and we love babies!
