

ABOUT US

Vulcan Industries LLC

VULCAN, a pioneer in the design & fabrication of Fire Rated & Non Fire Rated Steel doors, Wooden Doors & Frames & Interiors with its expansion and diversification, have an increased capacity of over 3000 Doors and Frames in each segment of Steel & Timber per month. The Management's consistent efforts to provide custom made products in line with hectic schedules, the constant efforts of R & D comprised of well experienced engineers and the requirements of the clients, have made it possible to achieve a significant role in the domestic & overseas market as a trustworthy supplier. The company is promoted by highly qualified Entrepreneurs and is run by a team of well experienced & qualified personnel.

Why Choose Us?

Design Process

Our designs talk. The reason for our worldwide reach so far is the uniqueness and architectural perfection that we had in our designs. The doors that we design and manufacture meet all our client specifications.

Quality Manufacturing

More than any advertising we have been keenly concentrating to improve our product quality. And the response to us so far has made us understand that we were successful in designing and manufacturing the quality doors.

Support

We would be really happy to help you out on anything related to the product that we deliver. Our staffs will be giving you the needed instructions on the product and they will be happy to install that at your place. For any queries related to the product feel free to contact us.
